

ELECTRONIC CONSENT MANAGEMENT

SPONSORED BY  **NJ Health**
New Jersey Department of Health

The New Jersey Department of Human Services, Division of Medical Assistance and Health Services has funded this program. The electronic consent management solution (eCMS) will be an entry and to allow the transmission of CFR 42 Part2 to provider as consented to by patients.

Why participate?

Participation will enable behavioral health service providers to exchange Admissions Discharge Transfer (ADT) notifications and Continuity of Care Documents (CCD) with the consented providers, thereby increasing patient quality of care.

Participants will be able to electronically send and receive ADTs and CCDs for patients with sensitive health information.

Who is eligible?

Any behavioral health facility representing high Medicaid beneficiary population with a 2015 ONC (Office of the National Coordinator for Health Information Technology) with certified electronic health record technology (CEHRT) is eligible to participate.

Facilities can be standalone SUD clinic (non-hospital facility) or a facility in in the ambulatory care center of a hospital.

Participants must undergo the training for the provider portal which will be NJII-assisted. Participants must onboard to the NJHIN and sign any legal documents related to NJHIN onboarding and the eCMS portal.

Fees:

There is no cost to participate.

Timeline:

Our team will make onboarding effortless by providing all the assistance necessary to get started right away.

What can NJII do for participants?

NJII will provide the participants with the eCMS solution, which is a provider portal to send and receive patient consent information.

Those interested in joining should contact njhin@njii.com or complete our [online form](#).
